Ph.D. Completion Project Exit Survey

Thank you for completing and participating in this exit survey.

The Ph.D. Completion Project is an ongoing, grant-funded project that addresses the issues surrounding Ph.D. completion and attrition. The Council of Graduate Schools (CGS), with generous support from Pfizer Inc and the Ford Foundation, has provided funding to 21 major U.S. and Canadian research universities to create intervention strategies and pilot projects, and to evaluate the impact of these projects on doctoral completion rates and attrition patterns. An additional 24 partner universities are participating in various aspects of this project. The Ph.D. Completion Project aims to produce the most comprehensive and useful data on attrition from doctoral study and completion of Ph.D. programs yet available.

Additional information about either the Ph.D. Completion Project and the Council of Graduate Schools can be found on the following websites:
